

Urban Parking Dynamic Pricing Dashboard

14 lots · 73 days · 18,368 records | Demand uplift vs static: +14.2% | Rerouting recommendations: 1,932 | Saturation events: 1,158

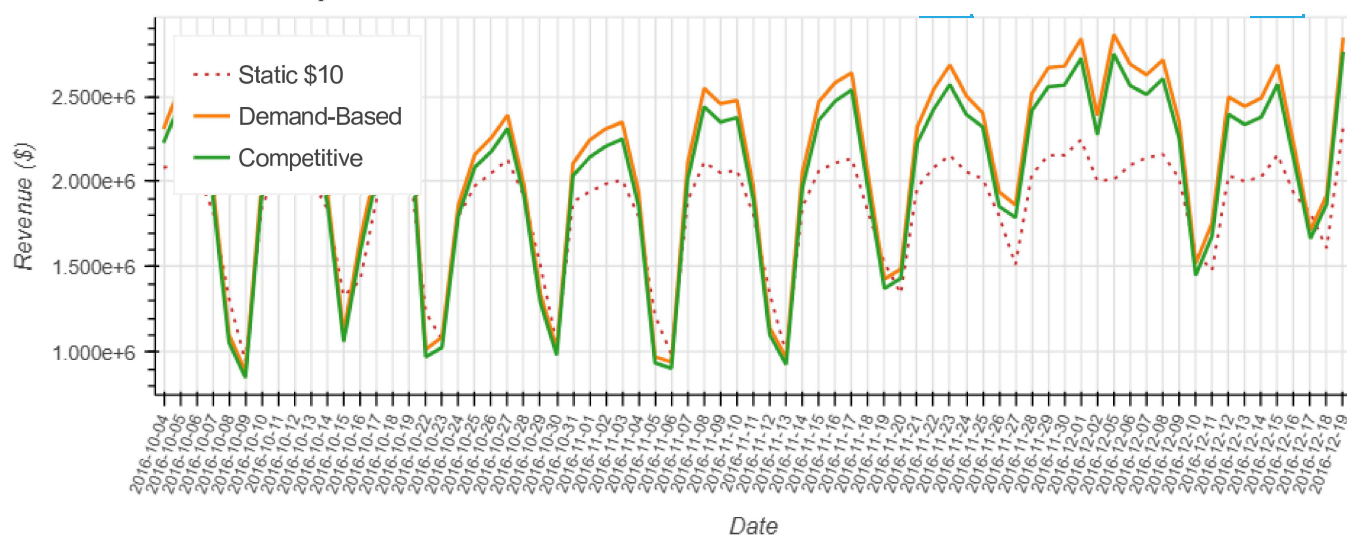

Revenue assumption: revenue = price × occupancy count per 30-min snapshot. Results represent comparative uplift, not absolute cash flows.

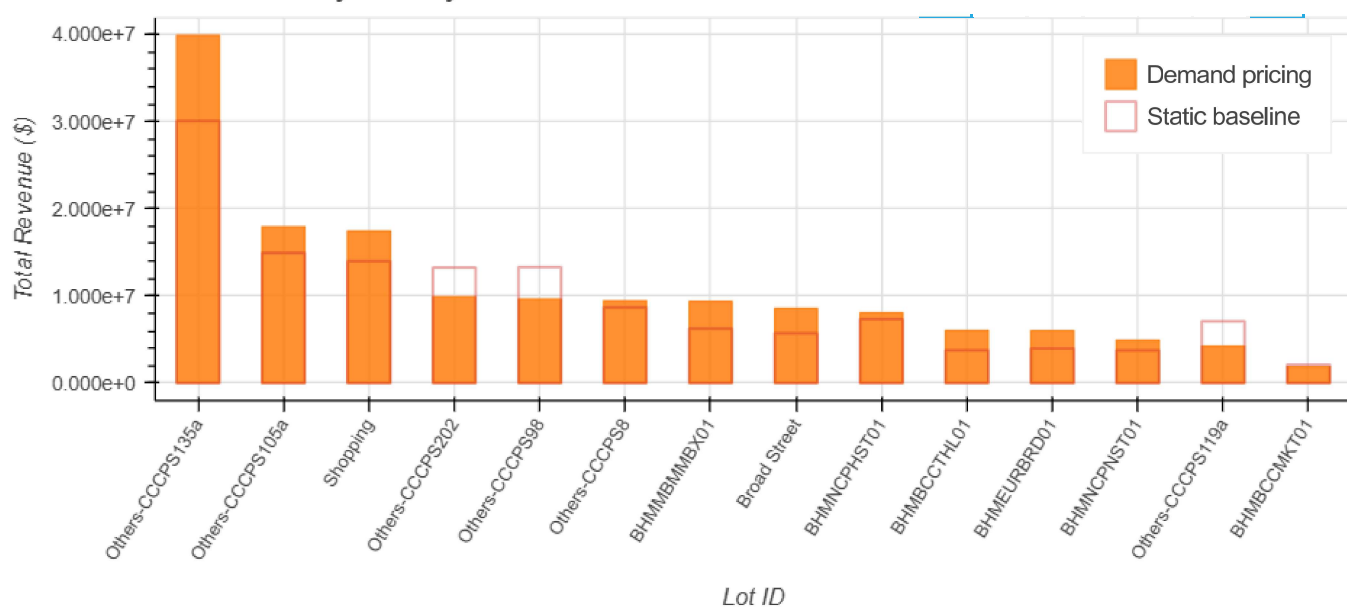

Competitive vs Demand Price — Lot BHMBCCKMT01 (colour = occupancy rate)

Simulated Daily Revenue — All Lots

Total Revenue by Lot — Dynamic vs Static Baseline

Price Smoothness — Consecutive Step Change Distribution (demand pricing)
